Dear Utah,

This year, our work is guided by a simple promise: to put people first and care for the place we all call home. We are working to expand childcare, strengthen schools, improve healthcare and mental health access, and protect our air, water, and the Great Salt Lake. We are also standing up for fair elections, independent courts, free expression, and the dignity of every Utahn, and pushing back against policies that censor voices, weaken democracy, or discriminate. For the Love of Utah means learning from the past by restoring rights and trust in our democracy, meeting the needs Utah families face today, and protecting the future we are building together.

x Utah Senate Democrats
