

This year, our priorities are organized around a simple idea: our love for Utah. That love is what brought us into public service and what motivates us to fight for our communities every day. We serve because we care deeply about this state and the people who call it home. We show up because Utahns deserve safety, fairness, opportunity, and a real voice in the decisions that shape their lives. *For the Love of Utah* is our love letter to this state, and to you.

It is also a commitment. A commitment to learn from the **past**, to be honest about the challenges Utah families are facing **today**, and to protect the **future** we are building together. It means standing up for our shared values, defending our democratic institutions, and choosing solutions rooted in dignity, accountability, and care for one another. Everything we are working on in this session flows from this promise.

This is our commitment. This is our work.

**This is, for the love of Utah.**

UTAH SENATE DEMOCRATS  
2026 GENERAL SESSION

## LEARNING FROM THE PAST & HONORING PROMISES

- Defending democracy through support for Proposition 4, fair maps, and ballot integrity
- Standing against censorship and the erasure of history in schools, universities, and public spaces
- Holding state systems accountable for past failures
- Upholding the constitutional rights that allow all people to live safely, authentically, and with dignity
- Remembering Utah's full history, including its indigenous people & the generations of immigrants and refugees who built it
- Protecting Utah's constitutional authority and state sovereignty

## FACING TODAY'S REALITIES

- Lowering costs and improving economic security through living wages, pay transparency, worker safety, and consumer protections
- Stabilizing teacher pay, and strengthening schools while opposing diversion of public dollars
- Improving healthcare access, mental health services, and addiction response
- Modernizing the justice system and prioritizing public safety
- Opposing efforts to limit voting access, weaken courts, or manipulate election rules
- Protecting family stability and due process in immigration enforcement
- Expanding access to high-quality and affordable childcare
- Ensuring statewide homeless response and resources connect people to services while creating pathways to stable housing
- Addressing immediate child safety risks to protect physical integrity and prevent abuse

## SAFEGUARDING UTAH'S FUTURE

- Protecting the Great Salt Lake, clean air, and water
  - Investing in children through education, mental and behavioral health support, and welfare protections
  - Planning responsibly for growth and the 2034 Olympics
  - Ensuring public resources and funds are used responsibly with future generations in mind
  - Investing in long-term childcare, food security, and health care access
  - Standing against efforts to sell off, privatize, or transfer public lands
-
